SUBJECT INDEX

Abortion in mice and its relationship to stage of gestation, EHV-1-induced, 139
Acetazolamide and hydrochlorothiazide in horses with hyperkalaemic periodic paralysis, Prophylactic efficacy of phenytoin, 95
Activation of the renin-angiotensin system in dogs with asymptomatic and symptomatic dilated cardiomyopathy, 172
Adenosine deaminase in the body effusions of cats, Validation of the determination of the activity of, 226
African swine fever, A pathological study of the perisinusoidal unit of the liver in acute, 146
Alpha-fetoprotein, carcinoembryonic antigen, keratins and vimentin, Immunohistochemical evaluation of canine primary liver carcinomas: distribution of, 124
Ampicillin administered intravenously and intraosseously to kittens, Pharmacokinetics of, 186
Analysis of the expression and secretion of isotypes of sheep B cell immunoglobulins with a panel of isotype-specific monoclonal antibodies, 189

Bromosulphthalein and indocyanine green clearance in sheep, Comparison of, 176

c-*yes* proto-oncogene, Sequence of the canine, 230
Carcinoembryonic antigen, keratins and vimentin, Immunohistochemical evaluation of canine primary liver carcinomas: distribution of alpha-fetoprotein, 124
Cardiomyopathy, Activation of the renin-angiotensin system in dogs with asymptomatic and symptomatic dilated, 172
Cardiomyopathy, Increased concentration of transferrin in the urine and serum of cattle with, 160
CD45 (leucocyte common antigen) in the domestic cat, Identification of, 201
Chlamydia psittaci (ovis) in ruminal and abomasal contents, In vitro survival of the BS isolate of, 136
Chromosome B2-material in three cases of feline mammary tumours, Loss of, 61
Clenbuterol generated by equipment suitable for the inhalation of drugs by calves, Physical properties of particles of ipratropium and, 164
Comparative study of electron microscopical techniques for the detection of scrapie-associated fibrils, 247
Comparison of bromosulphthalein and indocyanine green clearance in sheep, 176
Comparison of four methods for the determination of plasma pepsinogen concentration, 234
Concanavalin A and pokeweed lectins on microvillar membrane proteins during the organ culture of rabbit intestinal mucosa, Effects of, 50
Creatine kinase isoenzyme profiles in the plasma of the domestic fowl (*Gallus domesticus*): effects of acute heat stress, 30
Cytokeratin in visceral glomerular epithelial cells of dogs with glomerulonephritis, Ultrastructural co-localisation of vimentin and, 87

Detection of bovine herpesvirus 1 in the semen of experimentally infected bulls by dot-blot hybridisation, polymerase chain reaction and virus isolation, 183
Detection of tetanus toxoid-specific memory T cells in equine lymph nodes but not in peripheral blood, 79
Detomidine, ketamine and guaiphenesin: pharmacokinetics, cardiopulmonary and endocrine effects, Total intravenous anaesthesia in ponies using, 17
Dexamethasone of interleukin-1β and interleukin-6 expression in alveolar macrophages from cows, Inhibition by, 41
Diarrhoea associated with atypical rotaviruses in goat kids, An outbreak of, 180
Dichelobacter nodosus amplified through PCR, Relationship between clinical manifestations of footrot and specific DNA products of, 102
Dichelobacter nodosus and observations of natural resistance to footrot, Effects of the severity and duration of lesions on the primary and amnastic humoral responses of sheep to, 128
Disposition and urinary excretion of phenylbutazone in normal and febrile greyhounds, 261
Distribution of cystolic oestrogen and progesterone receptors in the genital tract of the mare, 214

Effect of acute and chronic restraint on the adrenal gland weight and serum corticosterone concentration of mice and their faecal output of oocysts after infection with *Eimeria apionodes*, 82
Effect of dietary protein supplementation on the development of immunity of *Ostertagia circumcincta* in growing lambs, 24
Effects of concanavalin A and pokeweed lectins on microvillar membrane proteins during the organ culture of rabbit intestinal mucosa, 50
Effects of the severity and duration of lesions on the primary and amnastic humoral responses of sheep to *Dichelobacter nodosus* and observations of natural resistance to footrot, 128
EHV-1-induced abortion in mice and its relationship to stage of gestation, 139
Eimeria apionodes, Effect of acute and chronic restraint on the adrenal gland weight and serum corticosterone concentration of mice and their faecal output of oocysts after infection with, 82
Endometrium at different stages of the oestrous cycle, Immunohistochemical study of immune cells in the bovine, 238
Entry of the bacterium ileal symbiont intracellularis into cultured enterocytes and its subsequent release, 255
Evaluation of the nebulisation of sodium ceftiofur in the treatment of experimental *Pasteurella haemolytica* bronchopneumonia in calves, 267
Expression and quantification of IgG and IgM molecules on the surface of lymphocytes of cattle infected with bovine leukaemia virus, 45
Expression of class II major histocompatibility complex molecules in renal tubular epithelial cells of canine kidneys affected with tubulointerstitial nephritis, 114

Factor VIII and von Willebrand factor antigen concentration in the frozen state, Stability of canine, 156
Factor VIII in canine cryoprecipitate under various conditions of storage, Stability of von Willebrand factor and, 152
Foot-and-mouth disease virus non-structural protein 2C as a serological indicator to differentiate infected from vaccinated livestock, Identification of native, 70
Footrot and specific DNA products of *Dichelobacter nodosus* amplified through PCR, Relationship between clinical manifestations of, 102
Footrot, Effects of the severity and duration of lesions on the primary and amnastic humoral responses of sheep to *Dichelobacter nodosus* and observations of natural resistance to, 128

Glomerular filtration rate in dogs, A simple method for measuring, 118
Glomerulonephritis, Ultrastructural co-localisation of vimentin and cytokeratin in visceral glomerular epithelial cells of dogs with, 87
Grippotyphosa serogroups isolated from cattle in Zimbabwe, Identification of leptospires of the Pomona and, 92
Guaiphenesin: pharmacokinetics, cardiopulmonary and endocrine effects, Total intravenous anaesthesia in ponies using detomidine, ketamine and, 17

Herpesvirus 1 in the semen of experimentally infected bulls by dot-blot hybridisation, polymerase chain reaction and virus isolation, Detection of bovine, 183
Herpesvirus type-1 (EHV-1) infection of C3H (H-2k) and BALB/c (H-2d) mice, Role of T-cells, virus neutralising antibodies and complement-mediated antibody lysis in the immune response against equine, 205
Histocompatibility complex class II in the domestic cat, Variable expression of major, 195
Hydrochlorothiazide in horses with hyperkalaemic periodic paralysis, Prophylactic efficacy of phenytoin, acetazolamide and, 95
Hydropericardium syndrome in broiler chickens: its contagious nature and pathology, 219
Hyperkalaemic periodic paralysis, Prophylactic efficacy of phenytoin, acetazolamide and hydrochlorothiazide in horses with, 95

Identification of CD45 (leucocyte common antigen) in the domestic cat, 201
Identification of leptospires of the Pomona and Grippotyphosa serogroups isolated from cattle in Zimbabwe, 92
Identification of picobirnavirus, viruses with bisegmented double stranded RNA, in rabbit faeces, 222
Identification of native foot-and-mouth disease virus non-structural protein 2C as a serological indicator to differentiate infected from vaccinated livestock, 70
Ileal symbiont intracellularis into cultured enterocytes and its susbsequent release, Entry of the bacterium, 255
Ileum of horses, Segmented filamentous bacteria associated with lymphoid tissues in the, 272
Immunoglobulins with a panel of isotype-specific monoclonal antibodies, Analysis of the expression and secretion of isotypes of sheep B cell, 189
Immunohistochemical evaluation of canine primary liver carcinomas: distribution of alpha-fetoprotein, carcinoembryonic antigen, keratins and vimentin, 124
Immunohistochemical study of immune cells in the bovine endometrium at different stages of the oestrous cycle, 238
In vitro growth inhibition activities of recombinant feline interferon on all lines derived from canine tumours, 275
In vitro response to mitogens by duck splenic mononuclear cells, 242
In vitro survival of the BS isolate of *Chlamydia psittaci (ovis)* in ruminal and abomasal contents, 136
Increased concentration of transferrin in the urine and serum of cattle with cardiomyopathy, 160
Indocyanine green clearance in sheep, Comparison of bromosulphthalein and, 176
Inhibition by dexamethasone of interleukin-1β and interleukin-6 expression in alveolar macrophages from cows, 41
Interferon on all lines derived from canine tumours, In vitro growth inhibition activities of recombinant feline, 275
Interleukin-1β and interleukin-6 expression in alveolar macrophages from cows, Inhibition by dexamethasone of, 41
Investigations of a killed dermatophyte cell-wall vaccine against infection with *Microsporum canis* in cats, 110
Ipratropium and clenbuterol generated by equipment suitable for the inhalation of drugs by calves, Physical properties of particles of, 164

Keratins and vimentin, Immunohistochemical evaluation of canine primary liver carcinomas: distribution of alpha-fetoprotein, carcinoembryonic antigen, 124
Ketamine and guaiphenesin: pharmacokinetics, cardiopulmonary and endocrine effects, Total intravenous anaesthesia in ponies using detomidine, 17

Leucocyte common antigen in the domestic cat, Identification of CD45, 201
Leukaemia virus, Expression and quantification of IgG and IgM molecules on the surface of lymphocytes of cattle infected with bovine, 45
Liver carcinomas: distribution of alpha-fetoprotein, carcinoembryonic antigen, keratins and vimentin, Immunohistochemical evaluation of canine primary, 124
Liver in acute African swine fever, A pathological study of the perisinusoidal unit of the, 146
Locomotor performance of adult horses, Predictive value of foal kinematics for the, 64
Loss of chromosome B2-material in three cases of feline mammary tumours, 61

Mammary tumours, Loss of chromosome B2-material in three cases of feline, 61
Microsporum canis in cats, Investigations of a killed dermatophyte cell-wall vaccine against infection with, 110
Mitogens by duck splenic mononuclear cells, In vitro response to, 242
Mycobacterium vaccae, Protection of cattle from bovine tuberculosis by vaccination with BCG by the respiratory or subcutaneous route, but not by vaccination with killed, 10

Nephritis, Expression of class II major histocompatibility complex molecules in renal tubular epithelial cells of canine kidneys affected with tubulointerstitial, 114

Oestrogen and progesterone receptors in the genital tract of the mare, Distribution of cystolic, 214
Oestrous cycle, Immunohistochemical study of immune cells in the bovine endometrium at different stages of the, 238
Ostertagia circumcincta in growing lambs, Effect of dietary protein supplementation on the development of immunity of, 24
Outbreak of diarrhoea associated with atypical rotaviruses in goat kids, An, 180
Oxygen cost of ventilation in the resting horse, 168

Pasteurella haemolytica bronchopneumonia in calves, Evaluation of the nebulisation of sodium ceftiofur in the treatment of experimental, 267
Pathological study of the perisinusoidal unit of the liver in acute African swine fever, A, 146
Pepsinogen concentration, Comparison of four methods for the determination of plasma, 234
Peste des petits ruminants virus, Protection of goats against rinderpest by vaccination with attenuated, 106
Pharmacokinetics of ampicillin administered intravenously and intraosseously to kittens, 186
Phenotypical characterisation of intestinal spirochaetes isolated from pigs, 1
Phenylbutazone in normal and febrile greyhounds, Disposition and urinary excretion of, 261
Phenytoin, acetazolamide and hydrochlorothiazide in horses with hyperkalaemic periodic paralysis, Prophylactic efficacy of, 95
Phylogeny of *Serpulina* based on sequence analyses of the 16S rRNA gene and comparison with a scheme involving biochemical classification, 5
Physical properties of particles of ipratropium and clenbuterol generated by equipment suitable for the inhalation of drugs by calves, 164
Picobirnavirus, viruses with bisegmented double stranded RNA, in rabbit faeces, Identification of, 222
Pokeweed lectins on microvillar membrane proteins during the organ culture of rabbit intestinal mucosa, Effects of concanavalin A and, 50
Pomona and Grippotyphosa serogroups isolated from cattle in Zimbabwe, Identification of leptospires of the, 92
Post natal development of canine caudal cervical vertebrae, 35
Predictive value of foal kinematics for the locomotor performance of adult horses, 64
Progesterone receptors in the genital tract of the mare, Distribution of cystolic oestrogen and, 214
Prophylactic efficacy of phenytoin, acetazolamide and hydrochlorothiazide in horses with hyperkalaemic periodic paralysis, 95
Protection of cattle from bovine tuberculosis by vaccination with BCG by the respiratory or subcutaneous route, but not by vaccination with killed *Mycobacterium vaccae*, 10
Protection of goats against rinderpest by vaccination with attenuated peste des petits ruminants virus, 106

Relationship between clinical manifestations of footrot and specific DNA products of *Dichelobacter nodosus* amplified through PCR, 102
Renin-angiotensin system in dogs with asymptomatic and symptomatic dilated cardiomyopathy, Activation of the, 172
Rinderpest by vaccination with attenuated peste des petits ruminants virus, Protection of goats against, 106
Role of T-cells, virus neutralising antibodies and complement-mediated antibody lysis in the immune response against equine herpesvirus type-1 (EHV-1) infection of C3H (H-2k) and BALB/c (H-2d) mice, 205
Rotaviruses in goat kids, An outbreak of diarrhoea associated with atypical, 180

Scrapie-associated fibrils, Comparative study of electron microscopical techniques for the detection of, 247
Segmented filamentous bacteria associated with lymphoid tissues in the ileum of horses, 272
Sequence of the canine c-*yes* proto-oncogene, 230
Serpulina based on sequence analyses of the 16S rRNA gene and comparison with a scheme involving biochemical classification, Phylogeny of, 5

Simple method for measuring glomerular filtration rate in dogs, A, 118
Sodium ceftiofur in the treatment of experimental *Pasteurella haemolytica* bronchopneumonia in calves, Evaluation of the nebulisation of, 267
Soya, Systemic and local gut-specific antibody responses in preruminant calves sensitive to, 56
Spirochaetes isolated from pigs, Phenotypical characterisation of intestinal, 1
Stability of canine factor VIII and von Willebrand factor antigen concentration in the frozen state, 156
Stability of von Willebrand factor and factor VIII in canine cryoprecipitate under various conditions of storage, 152
Systemic and local gut-specific antibody responses in preruminant calves sensitive to soya, 56

Tetanus toxoid-specific memory T cells in equine lymph nodes but not in peripheral blood, Detection of, 79
Total intravenous anaesthesia in ponies using detomidine, ketamine and guaiphenesin: pharmacokinetics, cardiopulmonary and endocrine effects, 17
Transferrin in the urine and serum of cattle with cardiomyopathy, Increased concentration of, 160
Tuberculosis by vaccination with BCG by the respiratory or subcutaneous route, but not by vaccination with killed *Mycobacterium vaccae*, Protection of cattle from bovine, 10

Ultrastructural co-localisation of vimentin and cytokeratin in visceral glomerular epithelial cells of dogs with glomerulonephritis, 87

Validation of the determination of the activity of adenosine deaminase in the body effusions of cats, 226
Variable expression of major histocompatibility complex class II in the domestic cat, 195
Vertebrae, Post natal development of canine caudal cervical, 35
Vimentin and cytokeratin in visceral glomerular epithelial cells of dogs with glomerulonephritis, Ultrastructural co-localisation of, 87
Vimentin, Immunohistochemical evaluation of canine primary liver carcinomas: distribution of alpha-fetoprotein, carcinoembryonic antigen, keratins and, 124
von Willebrand factor and factor VIII in canine cryoprecipitate under various conditions of storage, Stability of, 152
von Willebrand factor antigen concentration in the frozen state, Stability of canine factor VIII and, 156
